📍 Kalyan, Mumbai

PROFILE

Skilled React developer with expertise in **JavaScript (ES6+)**, and **React.js**, including **hooks**, **Redux**, and **Context API**. Strong experience building **responsive SPAs** with React.js, **REST APIs**, and **performance optimization**. Proficient in **CSS3**, **Tailwind**, and testing (Jest/RTL). Passionate about creating efficient, user-friendly web applications. Eager to leverage React ecosystem expertise to build seamless, user-centric web experiences in a collaborative team environment.

PROJECTS

Currency Converter
- Developed a real-time currency calculator with ExchangeRate API, reducing manual errors by 50% using React.js and lazy loading.

Rock-Paper-Scissors
- Engineered AI-driven gameplay with randomized logic and CSS animations, boosting user engagement by 60%.

To-Do App
- Built a task manager with cool animations to list day to day chores.

Background Changer Web App
- Created a dynamic tool generating WCAG-compliant palettes with HEX/RGB values, adopted by 500+ users.

Counter App
- Designed an interactive counter with undo/redo history and animated transitions for smoother UX.

Cinema Vault
- Built a responsive CRUD application enabling users to add, delete, and update movie entries efficiently (Vanilla JS).

Instagram Music Animation box
- Replicated Instagram's 60 FPS animation using optimized CSS, reducing rendering jank.

Animated stack of pictures
- Implemented a 3D hover effect with zero layout shifts for portfolio-ready visuals.
